4 Bedrooms . 2 Bathrooms . 1,800 Sqft

Keys Point is a private remote fly-in community located on Lake Clark National Park, 200 miles Southwest of Anchorage. It represents a variety of stunning features not found together in any of the Alaska Parks: No roads lead to Keys Point. It can only be reached by float plane or wheel plane. Lake Clark is the most important spawning grounds for the world's largest sockeye salmon (red salmon) in
